How to Upgrade SXmini G Class to V6.700

SX550A chip is the same as **SX550J** chip, just different production batches.

Before upgrading, please check the **Device information** on SXi driver.

If your device is powered by **SX550J chip**, please upgrade with SX550J firmware.

If your device is powered by **SX550A chip**, please upgrade with SX550A firmware.

1. Please install SXi-Q driver Version **2.8.3.1** (or higher versions) to upgrade your SXmini G Class.

2. Download the SXmini G Class V6.700 upgrade file, please read the important notice before upgrading.
